

AGENDA

7TH ANNUAL

C3E Women in Clean Energy Symposium

Celebrating and Recognizing Past and Present

Women Awardees of the Clean Energy Education & Empowerment Program

December 3 & 4, 2018

STANFORD UNIVERSITY

Frances C. Arrillaga Alumni Center, McCaw Hall
326 Galvez Street, Stanford, CA

In 2018, the Clean Energy Education and Empowerment Symposium and awards will recognize eight outstanding mid-career women who are advancing and implementing solutions that can transform our energy infrastructure and reduce emissions. Drawing upon our illustrious and distinguished C3E Ambassadors, we will explore trends and innovations from energy storage to siting natural gas pipelines and wind generation, and from clean energy finance to saving money through lowering energy and water intensity in their businesses. In its seventh year, exceptional past C3E Awardees will share with us what winning a C3E Award has allowed them to accomplish over the subsequent years – how they have been able to inspire women and men, from all walks of life, in energy careers using science, technology, engineering, and math.

*Hosted by Stanford Energy, in collaboration with the U.S. Department of Energy,
MIT Energy Initiative, and Texas A&M Energy Institute*
